2000-2002 Operator for Herrenknecht AG
2002-2006 Area Sales Manager, Technical consultancy, Operator and Manager of Field Service for Herrenknecht AG in the United States.

Personal Profile:

I am a TBM Operator / technical Consultant with wide practical experience of micro tunneling projects and also in Slurry Separation and Soil stabilisation.

Through the year I have not only operated Microtunneling machines but also managed jobsites, Consulted difficult projects and assisted several Cities and Companies around the United States in the development and execution of Projects. I have given technical consultancy on projects for instance to the department of design and Construction in New York (DDC) and several large Engineering Companies such as Jacobs Associates, Hatch Mott MacDonald, CH2M Hill and Caldwell & Baker Portland just to name a few.

Member of the NASTT (North American Society for Trenchless Technology) and recognized Guest speaker at the Colorado School of mines where I annually gave speeches for Microtunneling.

Timeline:

1997-2000 Started with a company in Berlin as Pit Labour on a microtunneling system Soltau RVS 100 Auger System. Was trained by the existing Operator in Operation of Microtunneling machines. Operated Bohrtec 150 pilot tube machines and later on was also trained on Herrenknecht machines.

In the year of 2000 I was in charge of 2 MTBM Systems with crew for the successful Completion of Projects in Germany, France, Portugal and Belgium. Machine sizes varied from 250mm up to 1800 Slurry machines.

2000-2002 Operated Machinery for Herrenknecht Worldwide such as in America, Europe, Middle East, Hong Kong and England in the Size range of AVN 250 up to AVND 2000 series.

2002 I was assigned by Herrenknecht AG Germany to take care of technical service and Consultancy in the USA.

2003 Herrenknecht also assigned Sales and market development research for the USA to me and I was Manager Sales and Service till 2005.

2005-2006 I became Area Sales Manager for North America & Canada.

Throughout these years I have not only sold, operated and serviced machines but was deeply involved with the successful completion of Projects throughout the USA.

I also Assisted in the development of Project specific Custom built of Microtunneling Equipment for extreme challenging Projects.

2006 I took the Home the project of the year Award for Herrenknecht for the Westside CSO Project in Portland Oregon and the microtunneling Achievement Award 2006 for the continuous support of the North American Microtunneling Industry.

Currently I'm working together with ITS GmbH in Germany which supplies such personal and Northwest Boring out of Woodinville WA. USA.
